

# A New Generation of Soft Serve Freezer Dual Control NE Series

Be Brilliant  
Be Smart

You need this to fresh or upgrade your  
ice cream business.

# NE2430L Soft Ice Cream Machine

Floor-Standing

## Features:

### Dual Control System

NE Series can be turned off separately, this function is extremely useful during the period of slack selling.

### Quick Cooling

With compressors of double 1.5HP Tecumseh, the first dispensing just needs 8 minutes and the next round refrigerating is less than 2 minutes time intervals.

### All brilliant functions integration

Stainless Steel, Pre-cooling, Self-cleaning, Low-mix Alarm, Counter system and Hopper agitator.

Siemens touch screen with displaying operating statistics makes the operation easy and fast.

Multiple protections include temperature, motor amperage, system pressure, running time, etc.

Automatic sleep model allows the machine to enter sleep mode automatically and preserves mix in case of non-operation.

Newly added self and manual inspections allow users and technicians to fast diagnose and troubleshoot problems.

## Technical Data:

Model:	NE2430L
Flavors:	2+1 mixed
Production Capacity:	65L/H
Mix Hopper:	2*12L
Cylinder:	2*2L
Power:	4400W
Main Compressor:	1.5HP/1.25HP *2(Dual control)
Cooling System:	Air Cooled
Refrigerant:	R404A
Voltage:	220V 50/60HZ
Net Weight(kg):	262
Dimension(mm):	540*831*1470
